I Love the methods of presentation,  
it makes Learning less Stressful  
~~and~~ and fun. I wish my <sup>(past)</sup> professors  
in college taught in the same fashion.  
This does not feel like learning, but I  
sure did learn a lot!!

THANK YOU! GOD BLESS YOU!

This was a wonderful seminar. It was very informative while being enjoyable. The time went by quickly. I enjoyed that there were lots of activities to keep busy with. I will be returning for another class.

This was an \*excellent\* seminar. Thanks for providing us with the opportunity to examine assessments. I will take what I learned today to my classroom + start using it on Monday!

Thanks!!!

## effective assessment

This seminar was excellent because it ~~also~~ sheds light on a dark educational field. I believe what was taught by the instructor ~~is~~ ~~was~~ was excellent and she was always very positive and inviting. I would recommend this class to every teacher.
