I really like your class and most of all I have to say it was a pleasure having you as the instructor. I learn so much in your class and I have to say it's the first time I enjoy an Art class. Thank you so much for being so dedicated to your job. I like the groups we were put in and the drawing part. Because I'm more of a visual person.

Thank you for your participations & all your hard work

Enjoyed the Class very much. Loved that the professor would treat us everytime we participated in a conversation. I also enjoyed very much the 1st ~~do~~ of class & the video that was presented. found it very interesting to get info about how the brain functions, I also liked how the professor incorporated other things that she had learned from her past experiences & brought them to our class. The last thing I would ~~like~~ say is that I loved your accent when you talked ↓

I really enjoyed all of the classes. I am not a very outspoken person but through the presentations I was able to keep open to the classes, it brought me to see that it isn't hard to do. The class was very fun; 4 hours was nothing while being in your class because it was fun. Thank you very much for all you taught us.

I loved this class so ~~not~~ much.

I was always excited to come to class.

The only thing I would change is to have you as our teacher for another course, or this class would be longer.

How could I express any thoughts about this wonderful class given by a wonderful teacher. I learned a lot of details although I'm active in many artistic gatherings. I fell in love with this course and the teacher. I felt and valued this course more than any other subject. In general, the impression is that art is less important than other subject. After I took this course I value art more than other subjects. I started to apply what I learn in the class where I'm tutoring. Through this class I had the ideas to apply like the colorful foams and the shaper... I liked the assignment where we visited a ~~concert~~ museum or attended a concert. This

I loved every moment of it. The teacher really knows what she is talking about.

Little unsettling to be in a group considering, I do not play well with others, but I learned new ideas and concepts of ~~art~~ art from a member of a good group.

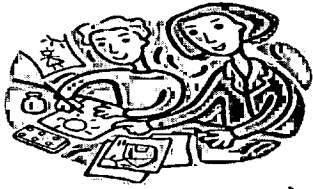

I loved ~~my~~ every moment of this class, although I am not artistic, I love to look at art, and it makes me excited to open ideas in others, that they open in me.

Thank you.

At the Art Fundamental's class was an amazing journey in to the idea and concept of ART. In this class I learned that art is very important and that it reaches into our lives more than we know. I felt like I got more than my money's worth for this class and I owe the teacher back pay. The enthusiasm and passion that this class was taught with will be spirit that I will try and mimic and embody in the future.

The power of art is sometimes forgotten but then one comes across individuals like Mrs. Torbati and we are reminded about the importance of Art in our everyday. This art fundamental workshop was taught with energy and enthusiasm, just what art is. I truly enjoyed the power presentation with all the color and pictures, it allowed my learning desire to stay alive because with a long workweek it is sometimes very important. I looked forward to one day being half the teacher Mrs. Torbati is and I hope that I can incorporate art and teaching in my classroom.

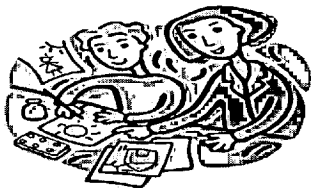

Thank you for ~~reviving~~ reviving ART in my life.

It was a great class. We all loved this class. the atmosphere was conducive to ^{learn,} relax, enjoy, and share with others. I will most surely remember one thing from this class, and that is, to be positive.

One of the videos we watched was powerful. In it, it talked about changing the lens. By doing so, it will also change our perspective. I will never forget that.

Thank you Mrs. Torbati for making this class so enjoyable!
