

Evaluate your seminar in “Backward

Designed Curriculum”

This course definitely brings an interesting view on designing a lesson. The activities made the concepts more relevant to our materials → can see how it can be implemented in my own classroom.

Thank you for attending & all your participations

Awesome! She is
a phenomenal teacher
and makes learning
fun & I will definitely
apply this to my job.

Thank you for attending & all your participations

Loved - loved - loved

I appreciate the practical application to be taken directly to the classroom. Instruction done in an easy to understand format. Low stress!!

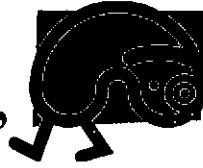

Thank you!

Thank you for sharing your
enthusiasm for teaching! ... it's
contagious.

Backwards mapping will
help me become a more
effective teacher by keeping my
end goal in mind, and focused.

Thank you for attending & all your participations

Evaluate your seminar in “Backward

Designed Curriculum”

This was a helpful and informative
Seminar. I especially enjoyed the
“Understanding by Design” and the
6 Steps.

Overall it was very,
very good!

Thank you for attending & all your participations
