This was an amazing class! I think that I ~~made~~ learned more about teaching (not just language, but general teaching principles as well) ~~that~~ in this class than I have in my entire ~~my~~ college career. You are a wonderful teacher, with a refreshing view of education. I feel that your worldly experience only added to the experience.

I really enjoyed this class. It was fun. At times some powerpoints were a little long which caused me to lose interest. But, overall I wouldn't change anything. The class wasn't overwhelming like many of our other classes. I wasn't stressed out, which helped me to relax and absorb information better. Getting pencils as a reward encouraged me to speak up when I am usually shy and quiet. I felt more confident in your class. Thank you for that! I wish more teachers were like you :)

This class was a pleasant surprise. I was always expecting the shoe to drop. I put pressure where it wasn't necessary. I could have enjoyed it better. I will be more prepared for ART. :)

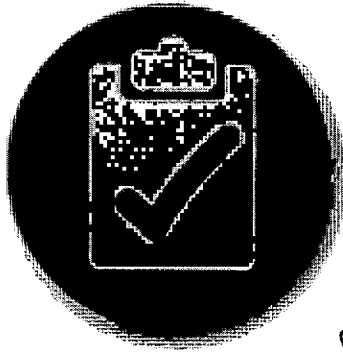

The pencil Rewards were a great incentive.

Thank you,

Looking forward to seeing you again 😊

I greatly appreciated the many different styles of learning/teaching you used in this class! From lectures to videos to projects, the class stayed interesting & made learning fun! This probably doesn't help but I wouldn't change a thing in this class! Thanks so much!

Ms. Inbut:

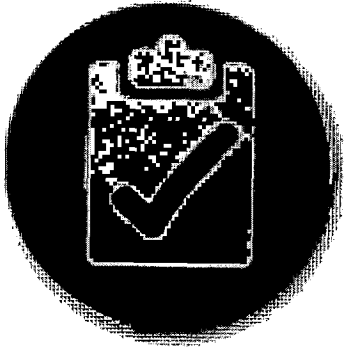

I really enjoy your teaching. Not only do you teach through experience, but through Creativity! You have proven that letting students use their 'right brain' is more effective. This was challenging for me because I don't think out of the box. But you helped learn strategies and ways that I can do this! You are a wonderful, unique teacher. Keep up the Great Work in training the best out of students --

God Bless!
Dina Lopez :)

I think you know a lot about other cultures and is able to share many different life lessons with us related to the topic; I enjoyed this class. You made ~~it~~ the time go by faster with the way you made it interesting. You are a very giving and good hearted instructor. 😊

I truly enjoyed this class.

I could hardly wait to get here to learn something new. Different cultures and languages always interest me. I enjoy listening to Portuguese Programs, Hmong singing, operatic plays and all these things enhance my desire for knowledge and to also share that knowledge with others.

Thank you

♥ Language acquisition course

was very fun get full of information,

the foams helped me remember most of the material thought in the class.

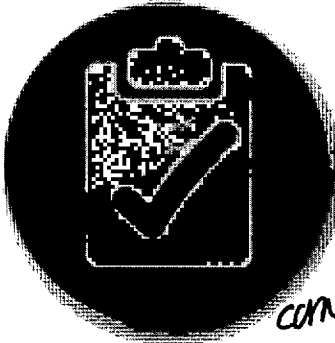

Mrs. Tobarti's way of teaching all the information was amazing. It made me WANT to come to class and LEARN. I didn't see it as something I HAD to do but genuinely

wanted to learn the material. It was easy for me learn and remember. The powerpoints

were so good because we got tons of information in very little time. This is my favorite class thus far. Thank you Mrs. Tobarti,

It was absolutely amazing!! I learned in this more than I have learned and or retained in any other course so far. At first having to think for myself and coming up with my answer instead of the right answer was difficult for me. I am so used to having to figure out the right answer for everything that I forgot how to think and do for myself. Thank you for introducing me to this new concept! I will use it in the future on the children I get to teach.

Best course EVER!!! 😊 Thank You!!

and retained!!

I absolutely loved this course, especially the professor. I believe when there is a great professor a student learns more.

Also, the professor involved a lot of motivation for us to learn and participate. I really liked how we were rewarded with pencils because that motivated me to participate in class and I am usually a quiet student. Over all, the course was amazing and so was the professor.
