I ~~feel~~ felt that I learn more in this short 6 weeks. Mrs Tabari was very helpful and encouraged us to be creative and think outside the box. Loved having Mrs Tabari as a teacher!

Being in your class was a fun course. I learned not to be shy and to communicate with others in class. Taking other courses

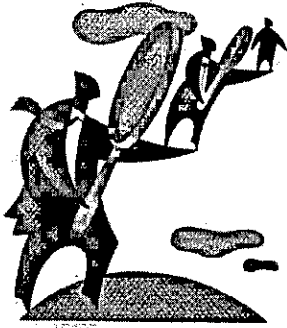

at Fresno Pacific, I've never volunteered in class nor spoke a word. Till you started handing out pencils. I got really excited receiving pencils. I know it was just pencils, but made me raise my hand and to answer a question you asked us. I had a great experience in your class. You ~~and~~ ~~you~~ are a great teacher and very caring to our classmates. Thank you for being a great teacher!! Hope to see and hear from you again! Good Luck!!

I absolutely loved this class. I really enjoyed the art projects that we got to do. What really helped the most was the foam. I will be using that from now on because it really helped me remember information. You are a great teacher!

This is one of my favourite classes.

Painting, gluing, making Japanese cut out dolls, using chalks, oil paints and colored markers, using scissors, glue and colored papers was so much fun. There is nothing about this class that I didn't like. Because I loved this class.

Art requires the individual to relax. To improve as an artist one must learn to relax. All students can benefit from this idea. Art is fun and we must enjoy it.

Dr. Torbati,

At first I wasn't sure how I'd like this class. In my mind I thought it was a waste of time.

You quickly changed my mind, however!

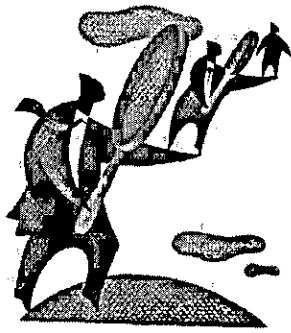

I really liked how you focused on very specific points and stuck to them throughout the course - rather than trying to cram so much in from the book. I really feel like the message was made - Art is important! Thanks

for exposing us to so many styles of art and art mediums too!

Don't change a thing!

Much Love! 😊

The art foundation course has been one of my favorites.

It has truly showed me the importance of Art Education. It is crucial and fundamental for kids. It bridges cultural and language differences. Creativity in kids is the future of tomorrow and I'm glad I took this course, it has truly opened my eyes and made me 100% more aware of the arts.
