As always, great class. You have made me a better teacher with all the "brain" information you've given me. I have lamps in my room, I have expectations instead of rules, and my kids are learning!

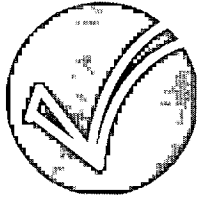

Thanks!

This course gave me ^a some new perspective on teaching + ideas

- don't teach similar concepts.
 - helped me understand why my students aren't retaining some math concepts
- I must build in reflection time!
 - she helped me understand why this is so important!

I've been needing a workshop like this - I can't wait to attend more!
