Overall, the workshop allowed me to gain a better understanding about why art is important. Art can be taught through many other content areas. It will stimulate their brain and help them in their overall educational career.

Great workshop Maryam. Always a pleasure to be in your workshop. You always provide very much interesting and useful information, proven to be true because you support it with evidence and research.

This is a great class. I loved the 'hands-on' for me, not just telling me about it.

I wish I knew about these kinds of classes before I signed up w/ USD.

Maryam has great leadership and a wonderful teaching style.

awesome as ~~was~~ always!
I always learn something new and
am inspired to be a better teacher!
Take care of your knee.

This class was very "hands-on", very creative and fun.

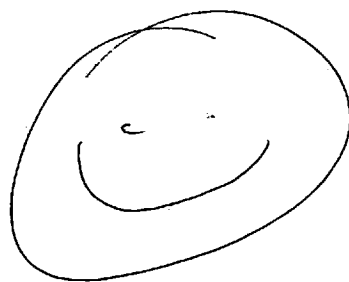

This class reminds me to use a variety of teaching techniques with my students because all kids don't learn in exactly the same way.

Very enjoyable class!

Once again, Dr. Torbati,
you have made learning
fun! I always leave
with food for thought
(and food for eating!)

It was awesome, and motivating to incorporate art into class. Not only to increase motivation, but also increase learning, feeling of accomplishment, and success.

Art is a foreign language that everyone can learn to speak.

Thank you.
