By far the Best I have ever taken.
You a great teacher, and make
the subject very fun, and
enjoyable. I had never learned
so much in such a short
period.

I found this class to be a wonderful approach to going about teaching. Bring in all learning styles & touching on the Right brain is a way to engage All students. The "rewards" were a fun way to maintain focus & drive in the Th. meetings. I am sure to utilize the handouts & printed material for study for upcoming Teacher Exams.

THANK YOU!!

You have been SO amazing & inspiring!!

This class has been fantastic! I feel as though I have learned more about what it is to be a teacher than any other class! Mrs. Torbati, you make the environment fun and relaxed, so that learning is much easier. I appreciate how you think outside of the box and use a rewards system. Thank you for all of our information and insight into our testing and beyond! With ♥!

These last 6 weeks have been effectively spent learning proper techniques for teaching students in a variety of ways. Taking into consideration that students learn in different ways, it is important to understand the varying ways to impact student advances. I will forever look back on this class for inspiration when considering adaptive techniques for special learners.

Wow! I looked forward to each & every class, even though highly stressful time in life right now, when I entered the room, my brain began to relax and I "remembered" how to calm down and learn.

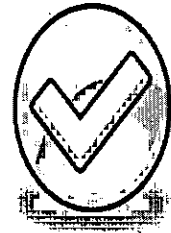

I leave this class with ideas & hopes for when I have my own first class, and learned things about relating w/others @ different levels

Mrs. Torbatti (Hope I spelt that right),

I enjoyed you very much as a teacher and in all sincerity it has been a very long time since I have taken a class where the teacher is so passionate about what they do and shows it through a lot of positive reinforcement and creativity. You are very refreshing and you know what you are doing! I loved this class and it was you that made it worth my time!

The language acquisition course was different than I expected but I really liked the course. It was different and it made us participate in the class with a good affective filter. The course was different and fun which made it interesting and memorable. In other words I learn and had fun at the same time and there is no better reward than that.

Thank you for everything.

- This class was very informative
- I would have liked to have spent more time learning about ESL

I always learn so much from your classes. One thing that I appreciate about your classes is you "practice what you preach". So often teachers describe learning styles and effective teaching in a long lecture from the front of the class.

This course was one like no other. I have learned numerous new facts and concepts and will retain them forever. The colored note taking pads are fun & lively. The degree of socializing and interacting that were done was awesome!
