This was my second class with Dr Torbati and was as enjoyable and informative as the first. I enjoy the format of the class in that we students are allowed to both teach + learn from our peers. Dr Torbati's passion for the subject matter is evident every time she stepped into the classroom. I learned a lot from the class that I plan to apply in a classroom setting

I discovered the brain is so amazing. God has truly gifted us with the ability to learn for life. So many people feel they can't learn new things. I learned there is no limit to what a person can do. Our brain is willing we must make our bodies follow. Thank you, I'm always inspired by your class with new way to teach and to be a life long learner. —

It was very interesting and fun. I didn't realize
how much you can actually learn when there is
no stress from papers and exams.

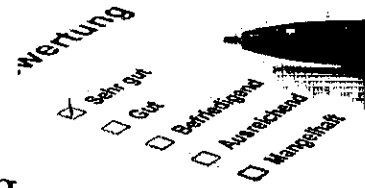

I hope I am able to take another class with

I really enjoyed this class, you had great material and I like writing on the soft sponge texture. I will go buy a bunch of fun stuff to give my students like pens and stickers because it made the class more fun. Thank for having the workshop.
