I liked that this class built on some of the best teaching practices that I already employ in my classroom. I gained many new techniques & look forward to further researching the 50 Strategies book.

* many activities in class modeled best practices for ELD

* collaboration with peers furthered my learning & helped me gain new ideas

This was the most ~~practical~~ practical
class yet. The strategies
are invaluable. Thanks!

I can't wait to use; I've
always wanted more group strategies.

I learned so much about the brain & how you can better stimulate it and keep it healthy & strong.

It was also great to learn different strategies as well as review ones that I was familiar with.

I also enjoyed the cooperative learning and snacks provided was great.
