

Please evaluate your diversity workshop

It is always a pleasure coming to your class. It is very enriching. You are full of knowledge. Time flies in this class because of all the hands on and collaborative activities we do in class. I have found that the things that are taught stick to me more because we are stimulating our brain and using all our 5 senses to learn. Keep up the great work . Have a fantastic summer!

Please evaluate your diversity workshop

Another good workshop. The information was good & I learned a great deal about culture & discrimination. The only thing I would like more of is ^{more} classroom activities like the tourist videos (great idea.)

Thanks!

Please evaluate your diversity workshop

Really enjoyed the information - very useful.
I enjoy the way that you present the
material.

And again thank you for sharing your ~~wisdom~~
knowledge with us.

Please evaluate your diversity workshop

Dr. Torbati is very organized. She uses technology to bring about the learning she wants to teach.

She balances conversation, reading, and reflection. She is very generous and it is always a pleasure to take a workshop with her. I respect and admire her teaching style.

Thanks to her I know WHY it is so important to have diversity in the classroom. It is to to communicate effectively with people.

~ Thanks ~
