It was awesome. I learned much about writing. We also learned how the left side & the right side of the brain work. Therefore we can create activities for both type of learners in our classroom. In addition the teacher presented the information in a very clear, professional, & exciting way! I would recommend this course to other teachers.

This was a great class!  
I learned so much that  
I can take back to my  
class and implement. I am  
going to use Step Up to Writing  
in my class. I am also going  
to implement the 6 traits plus  
1.
