Please evaluate your workshop

Very interesting and a wealth of information about ELLs, effective teaching strategies & how the brain functions.

Thank you for your attendance & your nonstop participations

Remember "second language learners are smart, they know two languages"

What did you learn about "50 strategies for teaching second

language learners with CCSS"? 

- Strategies:
1. ~~Visual~~ Visual, model, group share, collaboration, teamwork
  2. Brain storming, Think pair share, think pair write

Please choose a strategy that would be implemented in your classroom

My strategy is ..... Wait time

My goal is to wait longer before I call on a student to answer the question after I've given the question. This will allow my English Learners time to process and think since their brain is having to translate to English

Please evaluate your workshop  

Amazing, I love coming to these workshops. I learn so much and take back great strategies to use in my classroom to benefit all my students

Thank you for your attendance & your nonstop participations

Remember "second language learners are smart, they know two languages"

What did you learn about "50 strategies for teaching second

language learners with CCSS"?

1. visual learners and auditory learners do not learn with the same teaching approaches
2. Know your students and make <sup>teaching</sup> ~~it~~ familiar to them, they will enjoy learning if this is done.

Please choose a strategy that would be implemented in your classroom

My strategy is ..... linguistic Intelligence

being able to apply numbers to a classroom in a systematic way can help regulate ~~and~~ the environment of the students
