

What did you learn about "art of managing bullies"?

Two statements;

1. I learned that empathy training is necessary in the classroom in order to prevent bullying
2. Building positive relationships with scholars can help them to feel known and affirmed, which can in turn help to minimize bullying

One conclusion

Though many of the patterns of a bully are learned at home, the teacher can help to teach how to form new habits.

Amazing!

I learned so much in so many meaningful ways and feel like I have a lot to implement in my classroom to have a safer climate in my classroom

Thank you for your attendance & all your participations! Remember "bullies are not born, they are made"

What did you learn about “art of managing bullies”?

Two statements;

1. Students need to feel heard and valued to change behaviors.
2. Praise will help fill up student's emotional accounts.

One conclusion

Teaching empathy will help build a climate and environment that is bully free.

Great workshop!
So many things to reflect upon
and implement in my teaching.
The texts and videos were relevant and
enhanced the course.

Thank you for your attendance & all your participations! Remember “bullies are not born, they are made”
