Please evacuate your workshop "Backward Design Curriculum with

CCSS"  *What Dragons Know....*

Fabulous as always. Very thought provoking. Can't wait to incorporate the Six Facets of Learning into my daily teaching.

Thank you for attending & all your participations remember "starting with the end is the only sensible way to teach for understanding"

What did you learn about "UBD with CCSS?"

Two statements;

1. Start with the end in mind. ^① desired results ^② assess ^③ learning plan
2. Use the 6 facets of learning (at least 2) to increase rigor and depth.

Please evaluate your workshop "Backward Design Curriculum with

CCSS"

The class was very informative and offered many ways to engage students while using the UBD framework, you are awesome and a BLESSING!!

Thank you for attending & all your participations remember "starting with the end is the only sensible way to teach for understanding"

What did you learn about “UBD with CCSS?”

Two statements;

1. Essential Standards are key
2. Work in reverse when planning

Please evaluate your workshop “Backward Design Curriculum with

CCSS”  *What Dragons Know....*

Excellent.

Thank you for attending & all your participations remember “starting with the end is the only sensible way to teach for understanding”

What did you learn about "UBD with CCSS?"

Two statements;

1. Students need to move to learn
2. Always have The Big Idea first

Please evaluate your workshop "Backward Design Curriculum with

CCSS"  *What Dragons Know....*

great.

Thank you for attending & all your participations remember "starting with the end is the only sensible way to teach for understanding"

What did you learn about "UBD with CCSS?"

Two statements;

1. T should start planning w/ the end result in mind
2. Quality vs. Quantity

Please evaluate your workshop "Backward Design Curriculum with

CCSS"

*What Dragons
Know....*

Awesome applicable, what's
best for students!

Thank you for attending & all your participations remember "starting with the end is the only sensible way to teach for understanding"

You are
the best!

What did you learn about "UBD with CCSS?"

Two statements;

1. Begin with the End in Mind
2. Have students move, collaborate, + apply knowledge

Please evacuate your workshop "Backward Design Curriculum with

CCSS"

- very informative
- useful ideas for classroom
- Ubd goes together with CCSS

Thank you for attending & all your participations remember "starting with the end is the only sensible way to teach for understanding"

Thanks for the prizes & food!

What did you learn about "UBD with CCSS?"

Two statements;

1. Start w/ the end goal in mind, Know where
 2. you going + how to get there.
- Quality vs quantity is better.

Please evaluate your workshop "Backward Design Curriculum with

CCSS"

Students will be more engaged + focus when the teacher is prepared and students are kept on track.

Thank you for attending & all your participations remember "starting with the end is the only sensible way to teach for understanding"

What did you learn about "UBD with CCSS?"

Two statements;

1. The essential information should drive all decisions.
2. before lesson creation.

I need to use more tasks that require students to apply the information.

Please evaluate your workshop "Backward Design Curriculum with

CCSS" 

- Great amount of activity.
- Broken up portions of the day successfully ~~to~~ keep engagement.
- Great teaching strategies that are applicable.
- Great mentality.

Thank you for attending & all your participations remember "starting with the end is the only sensible way to teach for understanding"

What did you learn about "UBD with CCSS?"

Two statements;

1. The 6 facets are important in all lessons
2. Movement is critical to learning

Please evacuate your workshop "Backward Design Curriculum with

CCSS"

- Very informative
- Lots of ~~practical ideas~~ practical ideas to implement
- Engaging

Thank you for attending & all your participations remember "starting with the end is the only sensible way to teach for understanding"

What did you learn about "UBD with CCSS?"

Two statements;

1. I need to design my lesson plans starting with the goal.
2. Using the backward design principles align with common core principles

Please evaluate your workshop "Backward Design Curriculum with

CCSS"

I enjoyed the workshop and I learned how to use the backward design principles to create a lesson plan that is focused.

Thank you for attending & all your participations remember "starting with the end is the only sensible way to teach for understanding"

What did you learn about "UBD with CCSS?"

Two statements;

1. Keep students ~~learning~~ moving
2. Use backgrounds of students when covering lessons

Please ^{evaluate} ~~evaluate~~ your workshop "Backward Design Curriculum with

CCSS"  *What Dragons Know...*

The constant study of the brain and how it works is fascinating. Teaching students how it works may drive or steer them to their strengths.

Thank you for attending & all your participations remember "starting with the end is the only sensible way to teach for understanding"

What did you learn about "UBD with CCSS?"

Two statements;

1. Have your end goal in mind while teaching.
2. Include the six facets of understanding in backward design.

Please evaluate your workshop "Backward Design Curriculum with

CCSS"  *What Dragons Know...*

This was a very worthwhile course. I liked the fast pace so it kept us engaged.

Thank you for attending & all your participations remember "starting with the end is the only sensible way to teach for understanding"

What did you learn about "UBD with CCSS?"

Two statements;

1. BEing able to teach info to others is true meaning of UNDERSTANDING,
2. Movement improves learning and focus
