

What did you learn about "learning theories"?

2 statements

1. Kohlberg - Based on self-centered interest
2. Bandura - learning through observation of others.

Which learning theory will you be trying first & why??

I will be giving students more freedom to do self-centered activities based on their own interest.

Please evaluate "learning theories" workshop

Great as always!
You are such a great teacher.
Thanks.

Please remember "Learning Theories are the best tools for teaching"

Thank you for your attendance & all your participations

What did you learn about "learning theories"?

2 statements

1. Kohlberg created the stages of Moral development - self-centered interest will engage them in their learning. ~~that~~
2. Constructivism is important for the students to learn and become life long learners.
- Construct their own ~~the~~ knowledge, think & analyze, understand and apply their knowledge.

Which learning theory will you be trying first & why??

I will be applying the Constructivism Learning theory because I want my students to own their ~~the~~ knowledge and experiences. I want them to become life long learners:

Thank you for your attendance & all your participations

What did you learn about "learning theories"?

2 statements

1. I learned that most students learn by ^{others} behavior.
2. ~~They~~ Students will more likely do what they observe is being done.

Which learning theory will you be trying first & why??

I will be trying the behaviorism. Students will have to construct and create more projects and experiments in my classroom, as well as research certain topics.

Please evaluate "learning theories" workshop

It was an excellent workshop for teachers. There are many strategies I will use in my classroom.

Please remember "Learning Theories are the best tools for teaching"

Thank you for your attendance & all your participations

What did you learn about "learning theories"?
