This workshop was awesome!
The videos, texts, articles and conversations
were all are applicable to teaching
and creating a world of inventors, thinkers
and innovators. It's so empowering
to know that as a teacher, I have
~~so~~ much influence. I am excited to
incorporate the Montessori method and
create a Student-centered, Student driven
Class. I also want to foster that
mistakes are part of learning as long
as we persevere and keep trying to master.
Thank you for such a wonderful
learning experience filled with resources,
strategies and awesome perspectives to
creating "Creators".
