

Please evaluate your "Discovery Learning" course

The discovery learning course was very impressive. The best thing I learned was how teachers should teach. Teachers should be guides and let the students direct themselves. Students learn best through knowledge and even past experience. I was touched and motivated when I saw the videos about teachers directing their students.

Dr. Torlato you are the best, you encourage all of us students to succeed and lead by example.

Thank you for attending & participating!

Hope our paths cross again until then be happy, be kind, use your fabulous/amazing brain, and above all go with GOD

Please evaluate your "Discovery Learning" course

I really enjoyed the course. Learned new strategies to how to deal with. I think you're the best teacher I have ever had and I can't wait to see you again. Great Class

Thank you for attending & participating!

Please evaluate your "Discovery Learning" course

This class was more than my expectations. I was hesitant about taking this course, but I needed credits for my last semester. When I walked into this class Dr. Torbati was very pleasant and extremely intelligent.

I learn best visually and hands on and this class did both and I learned so much because of it.

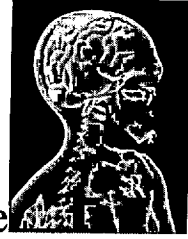

This class was great! At

I hope I get to cross paths with Dr. Torbati again! ☺

Sincerely
Student in

Please evaluate your "Discovery Learning" course

One thing that truly helped was constantly being involved in this class. It helped making posters and afterwards presenting to the class. The articles that we read were absolutely amazing and I learned so much from them. The following day I would tell my friends what I learned the day before. The brain is a beautiful thing!

Thank you for everything! God bless!

Please evaluate your "Discovery Learning" course

I always enjoy your classes! You are truly a wonderful teacher who cares about the students; the learning of the students. The book by James Zull was good; I always learn well with ^{making} powerpoints so I'm glad we got to create one in the end. Your classes really tap in to my style of learning. Thanks for being a great instructor! Hope our paths cross again!

Wednesday
night class

Please evaluate your "Discovery Learning" course

This course was amazing! It taught me how to teach effectively, and to learn the same as well.

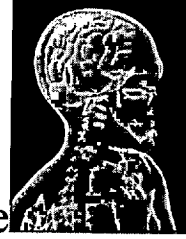

As always I enjoy the style of teaching, as it adapts to each learner. Thank you for enriching my brain, and expanding the depth of my knowledge. I will be forever grateful.

God Bless You Dr. Torbatti! 😊

Thank you for attending & participating!

Maryam Torbati

Please evaluate your "Discovery Learning" course

I believe Mrs Torbati has a very unbelievable technique of teaching that has taught me so much about the brain & how we learn.

This was the most enthusiastic class!

I had so much fun.

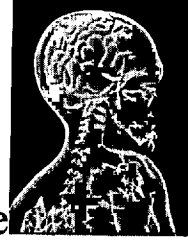

Learning in your class was a pleasure.

I love the Constructivist theory b'b'b'o

Thank - You

Please evaluate your "Discovery Learning" course

I enjoyed this class and all of the wonderful & useful knowledge. Dr. Torbati's teaching technique enables me to actually relax in a course and enjoy the information because she presents it in a way that you will never forget the information. Dr. Torbati is a breath of fresh air & she is an asset to this university.

Please evaluate your "Discovery Learning" course

I LOVED this class. It felt like less work more fun! And I remember so much of what we learned. I spent the last 6 weeks telling all my friends and family all about the brain. I have never felt so much freedom in learning. In my opinion, if all classes were like this, more people would see how important education is and go to college. I am so blessed to have been in this class, it has changed the way I view learning.

Thank you for attending & participating!
