I enjoyed this class a great deal. As a musician, and friend of many young local artists I respect and appreciate your outlook on the importance of art in the educational system. As a child, I spent my first several years of schooling in montesori-like private schools and had to adjust to the different teaching style of the San Joaquin Valley. Learning about how these are different has had a large impact on which direction I will follow in the future, should I choose a teaching career.
