This was a wonderful workshop. When Dr. Torbati shares her life and teaching experiences, I learn new ways to approach my own students. The research and information is useful and valuable. Your love of children and teaching shines through and gives many strategies to apply in our classrooms!

Thank you for your participation and working toward excellence

This class brought me back to the real reason I became a teacher. Sometimes we lose focus. Our focus is to fulfill the needs of students where they are needed. Often times we focus on academics as "testing" that we lose sight of the individual. I enjoyed this workshop and all the wonderful information and activities we completed today.

It was an amazing workshop, not only did I learn about new teaching strategies but I learned about the brain, which is fascinating. I also learned so much about myself and why I think and do certain things - Because I am left brained. You are a truly inspiring educator, I am truly lucky to have attended your workshop, I will be back tomorrow. 😊

I have taken so many courses with you Dr. Torbati but I must say this was one of the most powerful and insightful courses that I know I won't forget.

This course makes you think deeply within you. No one is perfect and we all have room for change. Don't be afraid of change.

Of the eight habits, I truly connect with finding your voice and ~~help~~^{helping} inspiring others to find theirs. Thank you Dr.

Torbati for helping me to change my mind set first before I can conquer the world.

I found it so helpful with every aspect of my life. So many classes teach you to be successful only in that subject. This class showed us how we can have success in all avenues of our life. The professor did a wonderful job was so prepared and knowledgeable. I can't wait to take more classes w/ her.

I TOTALLY LOVE TAKING DR. TORBATT'S
CLASSES. SHE IS FUNNY AND KEEPS YOU ENGAGED.

SHE HELPS YOU LEARN BY DOING INSTEAD OF
JUST FEEDING US WITH INFORMATION WE WILL
NEVER USE AGAIN.

I had heard of Stephen Covey before this course. However, I didn't know the eight habits. I will definitely take a lot of information away from the course. The format of the course was great and Dr. Torbati makes learning fun and interactive. I am very thankful that I enrolled in the course!

The workshop was very informational and fast paced. The style of the course was better than any other - it was fun and informative at the same time. ~~I~~ Even though I've been teaching for 14 years I feel even more prepared for the first day of the next school year with more strategies in order to manage my classroom more effectively. Thank you.

I am truly thankful to you for being an exciting and interesting teacher. I have learned a great deal - not only about classroom management but about myself. You taught us about the brain and how we can exercise our brain and help our memory. Who knew that dancing and smelling flowers helps our brain. ☺
