This class was amazing. Doctor
Toribate is a fantastic teacher. She
is passionate, interactive, fun -
Love this class!!!

Please evaluate your memory tools course

I TRUELY ENJOYED MEMORY TOOLS AND MIND MAPS. AFTER TAKING THIS COURSE I WILL BE MUCH MORE AWARE OF HOW THE BRAIN PROCESSES LEARNING. THE LEFT AND RIGHT BRAIN HAVE DIFFERENT FUNCTIONS, HOWEVER WHEN THEY WORK TOGETHER, THE RESULTS ARE TRUELY MAGICAL.

THE TEACHING STYLE KEPT THE STUDENTS ENGAGED AND ATTENTIVE THROUGH OUT THE CLASS.

Please evaluate your memory tools course

I enjoyed it and I gained a huge amount of information on how the brain is a vital organ and it should not be taken for granted. The learning tools to help my memory function more efficiently have been the most gratifying and helpful information for me to practice on a everyday basis. Maryam Toratti is a very fun and upbeat teacher. The food was good, and I was satisfied! :)

Please evaluate your reading comprehension workshop!

Maryam Torbati is a dynamic teacher and keeps the learner engaged all day!

The material presented was so valuable and relevant to teaching, especially as it connects to how students learn to read.

I had several "aha" moments and hope to be able to attend another workshop by Maryam.

Thank you for attending and hope our paths cross again!

I've heard so much about your classes, I am so thankful I came. You are amazing!

I have learned so much even though I have been in education for 13 yrs.

You have taught me new ways to engage my soon to be 7th graders (many who are struggling readers). You have made me more hopeful that I can teach 7th graders to become good readers.

Thank you!

Thank you for attending and hope our paths cross again!

Please evaluate your reading comprehension workshop!

I thoroughly enjoyed this class because Mrs. Torbati is very knowledgeable about the subject of comprehension through learning about the brain. I like her style of getting us to move around, talk, share, etc. It was very engaging and informational—just like the way we need to be teaching. —

Thank You so much I will definitely take another one of your classes.

Thank you for attending and hope our paths cross again!

- I learned many different techniques today! Thank you!
I have a list of new things I want to try and a list of things I need to change. I love how you have us write our notes on different material (I will do this with my own students)
Thank you!

Thank you for attending and hope our paths cross again!

Dr Torbati ...

You teach such amazing classes . I have taken all of my gap classes with you. I am finished with my extra classes and I wish I had more so that I could take more of your courses. I feel that I have so much more to learn from you.

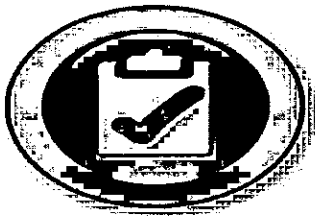

Thank you for sharing your wisdom and knowledge with me. You will always hold a special place in my heart. My OL Cohort ends Nov 1st and I hope we will cross paths before and after that date.

You are an excellent instructor. Thank you for everything.
God bless you... 😊

you never fail to teach me.
I wish this was a longer course.
My only wish is that the students
would be more respectful of each
other during presentations. I think
some of the students forget they are
suppose to be adults, not teenagers.

Thank you so much for sharing
your knowledge.
