Without doubt this art fundamental class was full of extra ordinary facts that made me grow as a person. I learned fascinating facts about children art and famous artists that made me reflect upon the impact art can have on the artist and viewers. I feel my time was well invested because I learned many things I will apply into my future class.

I enjoyed learning art in a creative environment. I feel I retained more by an interactive environment versus the drilling & testing traditional environment. You have been my favorite teacher since high school. You have touched me and I will never forget you, I only wish all our instructors were as great and awesome as you. The Lord shines through you.

LOVED THIS CLASS!!!

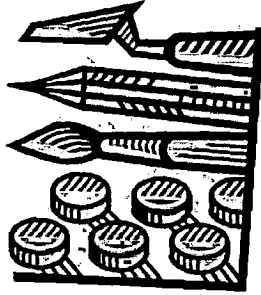

Thank you for being our teacher again. I have learned so much about art and its relationships to us and children. I will definitely use many of the strategies from the book as well as everything that I learned from you in my classroom when I become a teacher.

Thank you again. You are a wonderful teacher!

I really learned about myself and why I groan when I do art. My "art" such as drawing has never been pretty & that's okay. I discovered I am creative, but not as a painter or drawer but as a dancer. I am happy to say that I will incorporate music & dance into my lesson plans as well as arts and crafts. The arts & crafts we did were simple & inexpensive, so I'll have to show my student. I learned & had a good time!

☺  
You're awesome!

I have never enjoyed a class more than this one. I learned so much for no child is the same to Pablo Picasso. I feel as though I have learned a lot and know this will have a direct (positive) affect on my career. I loved this class and I love the teacher. I am sad to see it end.

I loved the class and the hands-on activities. Every week was something new and class was fun. The instructor was passionate, kind, humorous, sweet, thorough, competent, supportive, and motivating. I can't see how this class can possibly be improved. All I can say is that I am very thankful for the experience and gained knowledge.

Additional comments

Torbati it was a pleasure to know these ideas you shared are still out there. We do often get discouraged by the regime of NCLB. Maybe the pendulum will swing back — until I will manipulate ~~my~~ reality.

Thanks,

Better than expected. Not even what I expected. The type of teaching that should be brought back into the classroom. Too bad administrators weren't here.

Mrs. Torbati,

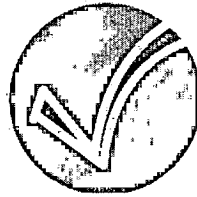

Was Super!! Very positive!!  
Gave tremendous suggestions  
about teaching a happy  
well-controlled classroom.

She stroked and encouraged  
us. We haven't had that  
in quite some time from  
school. Teachers need  
rewards too, I get mine  
from parents and students!  
Bring her back!!

Miriam was a wonderful presenter. She was very clear about what she suggested and what we can do to help make our classrooms (students) be more successful.

Thank you  
for your patience  
and for sharing  
your expertise.
